

EH2772-LED Phanzi Wall light - Warm White - Square - Stainless Steel

The Phanzi 240v round recessed step light gives you a glare free light onto steps, patios and paths with flanking walls. With its 64° beam angle and mounted 500mm above the ground the fitting gives you a 2 metre radius of useful light, perfect for lighting most paths and steps.

PHYSICAL DATA

Constructed from 304 brushed stainless steel with a powder coated aluminium body. Measuring 95mm square x 81mm deep. The light is retained in a plastic sleeve (supplied) via two spring clips so no external fixings are visible. The light is IP65 rated.

ELECTRICAL DATA

220-240v ac. 1 x 3W CREE 3000K warm white LED producing 54 lumens output with beam angle of 64°. The light has a CRI rating of 79 and a power factor of 0.44. Supplied with pre-fitted 2m three-core H05RN-F 1.0mm² rubber cable.

INSTALLATION

Either insert the plastic sleeve into the wall at time of construction, or retrofit by drilling a hole using a coring bit to a minimum depth of 81mm. Feed the cable through the sleeve and push the light into the tube. The retaining spring clips will hold the fitting in place.

COMPLIANCE & WARRANTY

- 2 Year Warranty
- CE / RoHS Compliant
