

EP32000- Meridian LED Marker Wall Light 12v/24v DC - 2w-12lm-120°-2700K- IP67- 316 Stainless Steel

Description

The Elipta Meridian LED Marker wall light is a beautifully made outdoor LED lighting fixture. A modern LED wall light suitable for outdoor lighting, with a backlit 'halo' light that creates a very stylish looking LED recessed light with a subtle, soft glow. A lovely example of a high quality LED recessed light with fine detailing, suitable for entrance features, porches, doorways, paths and outside patio areas. The Meridian is a recessed, low voltage outdoor wall light; 12/24v DC with a built-in 2w LED and pre-wired with 2m HO5RN-F cable. Purchase power supply separately.

| IP67 | 12v/24v DC | Pre-wired 2m | 50,000 Hours |
| Wide beam | Built-in LED | | |

Installation guidelines

Meridian Marker lights can be arranged in custom layouts using cable joint kits and 1.5mm cable, which is more flexible than kit-type products. Connect to the end of a low voltage cable using T9962 cable joint kit; for splicing into a run of cable use T9963 cable splice kit.

Do not use wire wound transformers or constant current power supply.

Do not exceed 60% of the nominal rating when selecting your DC constant voltage power supply
