With the BRICK LED recessed wall light, which is made of stainless steel and aluminium, the built-in LEDs are covered by a glass sheet. The built-in reflector means that the light is output symmetrically. The functional luminaire is connected directly to the 230V mains supply. With IP65 protection class, the luminaire is suitable for outdoor use. A mounting pot is included in the delivery for simple assembly. This luminaire contains built-in LED lamps. EEL: A - A++. The lamps in the luminaire cannot be replaced.
