# 80W Mains Dimmable LED Driver

Constant Voltage IP66 24VDC

# LDD-IP80/24(N)

## Technical Specification

| Order Code             |  | LDD-1P80/24(N)  |
|------------------------|--|---|
| Output                 | Rated Power  | 80W   |
|                        | Rated Current  | 3.34A   |
|                        | Output Voltage                                       | 24V DC  |
|                        | Voltage Tolerance                                    | ±0.5V   |
| Input                  | Voltage Range  | 200~240VAC  |
|                        | Frequency Range                                      | 47~63Hz   |
|                        | Efficiency (Typ)                                     | 83%   |
|                        | Power Factor   | PF≥0.97/200-240VAC(Full loading)  |
|                        | AC Current (Typ)                                     | 0.7A  |
|                        | Inrush Current (Max)                                 | 49.5A (50% Ipeak Twidth=490µs) 230VAC   |
| Protection             | Overload   | ≤ 120%  |
|                        | Short circuit  | Recovers automatically after condition is re-<br>moved                        |
| Environment            | Working Temp   | -40~+60°C   |
|                        | Working Humidity                                     | 20~90%RH, non-condensing  |
|                        | Ingress Protection                                   | IP66 waterproof   |
|                        | Storage Temp / Humidity                              | -40~+80°C, 10~95%RH   |
| Safety & EMC           | Safety Standards (LVD)                               | EN61347-2-13:2014/A1:2017, EN61347-1:2015,<br>EN 62493:2015, VDE 0710-14:1982 |
|                        | Withstand Voltage                                    | I/P-O/P:3.75KVAC  |
|                        | Isolation Resistance                                 | I/P-O/ P:100MΩ / 500VDC / 25°C / 70%RH  |
|                        | EMC Emission and Immunity                            | EN 55015:2013/A1:2015, EN 61547:2009,<br>EN 61000-3-2:2014, EN 61000-3-3:2013 |
| Dimming                | Dimming Type   | PWM dimming, PWM frequency ~ 400Hz  |
|                        | Minimum Load to achieve optimum<br>dimming of 5-100% | 10%, 8W   |
|                        | Dimmer   | Leading and Trailing Edge   |
|                        | Note   | Consult the Derating Curve for load guidance.                                 |
| Mechanical             | Size   | 230x70x43mm (L×W×H)   |
| To calculate the maxim | Weight   | 1.1Kg   |

To calculate the maximum number of drivers per mcb the following calculation can be applied: Number for drivers= lpeak (breaker)/ lsurge (driver).

Consult breaker manufacturer for guidance on circuit breakers for direct current applications.

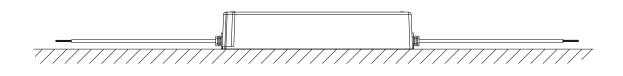

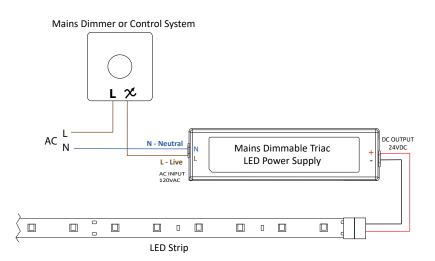

Dimensions 230 215 206 14 R2.5 Ģ 4 Output Input 70 40 ≫ G Ð G 20 200 43 200

#### **Recommended Mounting Position**

### Wiring diagram

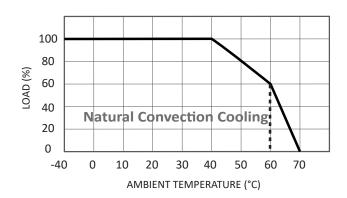

Con<mark>stant Voltage IP66 24VDC</mark>

#### Note

For compatibility of dimmable drivers with mains dimmers and home automation systems please refer to the compatibility chart on our website: www.intalite.co.uk/dimmerscompatibility Derating Curve

#### **Guarantee:**

All LED and electrical components carry a 5 year electrical guarantee, All lamps have their own average life span. We recommend all products are installed by NICEIC / registered electrical contractors, failure to do so will result in any guarantee becoming void.

#### **Full Terms & Conditions:**

For our full terms and conditions please visit our website - www.intalite.co.uk/terms-conditions
