5) Press Sign up.

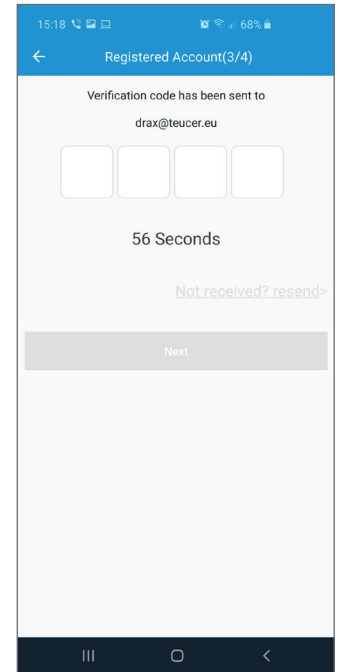

6) Choose username. This can be your email.

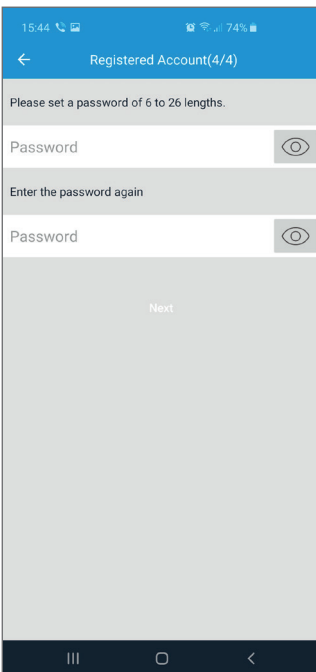

7) Enter your email address.

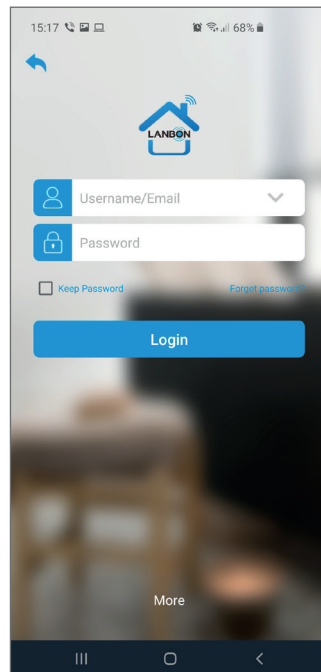

8) Enter your verification code you have received on your email.

9) Choose the password.

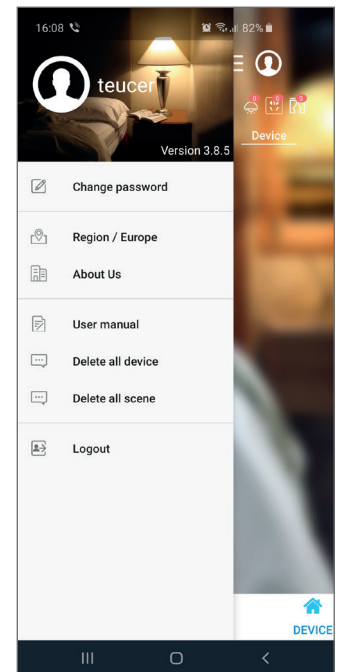

10) Login with your email and password.

11) Check you have logged in by pressing the top left profile icon.

You should see your username next to the top left profile icon.

Connecting the smart WIFI socket to your Home WIFI network

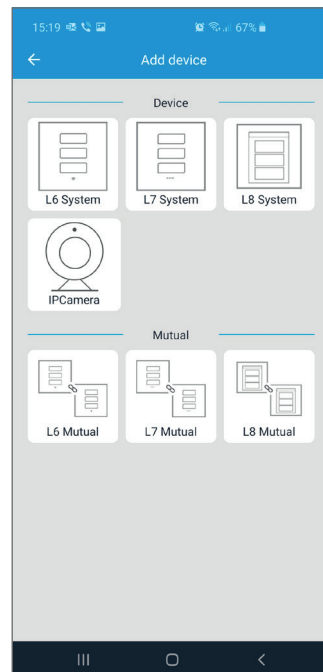

- 1) Make sure you have connected your phone to your home WIFI network. This product supports only 2.4Ghz 802.11b/g/n mode.
- 2) Press and hold configuration button for more than 5 seconds until you hear chime and see WIFI indicator starts flashing rapidly.

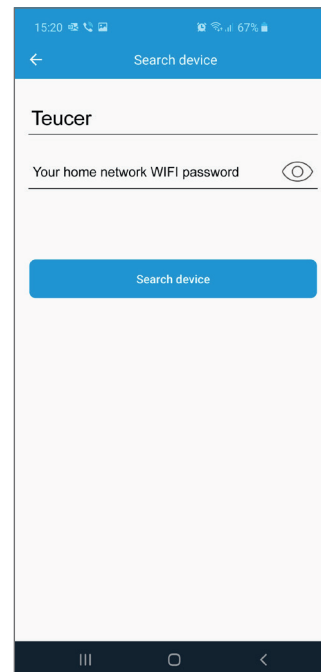

3) Press the + in the top right corner to add switch.

4) Select L6 System.

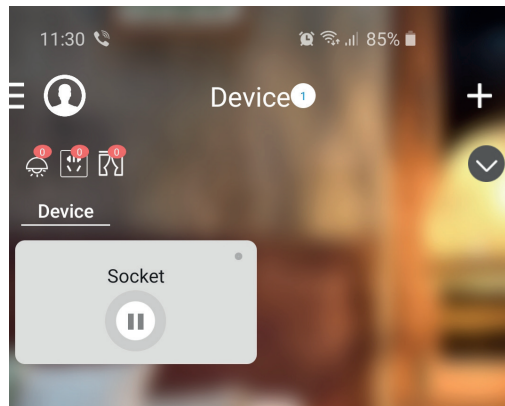

5) Enter your home network WIFI password.

6) Wait for process finish. You should see socket icon pop up.

7) Once the process has finished you will see the smart WIFI switch on the main app screen. Default name is Socket.

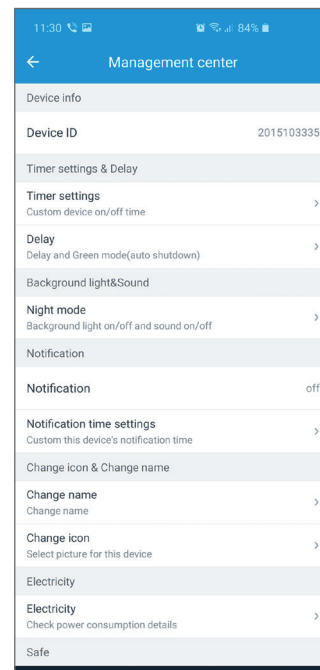

Controlling the smart WIFI socket

Press the socket icon to switch the appliance ON/OFF. By pressing the white background around the socket icon you will open the socket control screen.

Press the socket icon to switch ON/OFF.

By pressing the Gear icon in the top right corner, you will open the smart WIFI socket settings.

Smart WIFI socket settings

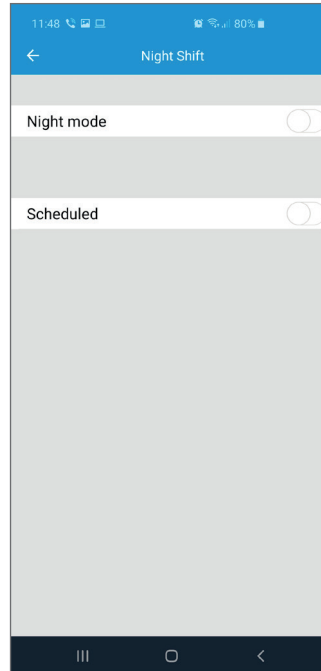

Timer Settings

You can set up to 4 different recurring timers.

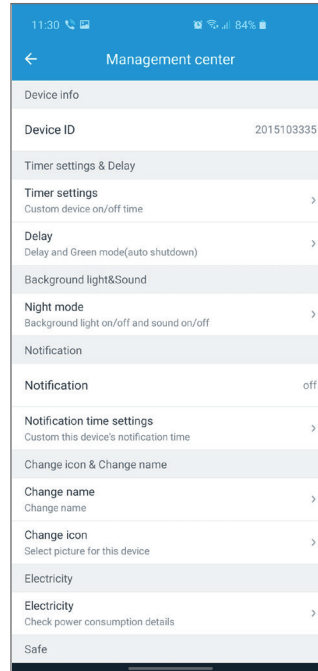

Night Mode

Night mode turns OFF the sound. It can be scheduled.

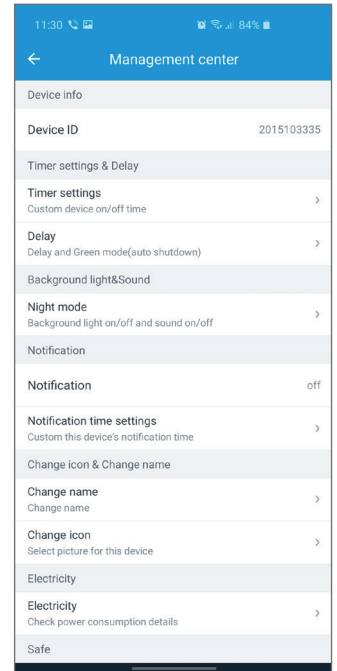

Notification

By turning ON notification, you can get the notification every time socket is turned ON/OFF.

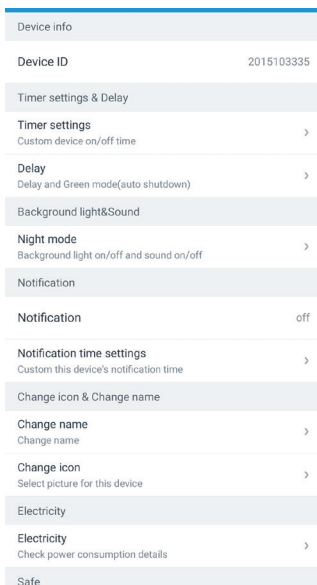

Change name

You can rename the socket. Voice control will use this name to control.

Factory reset or Delete

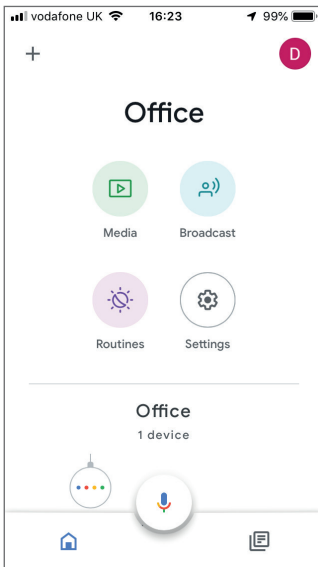

You can reset the smart WIFI socket to the factory defaults or delete device from the app.

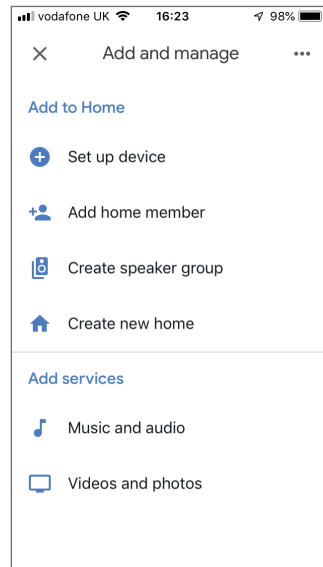

Connecting the smart WIFI socket to Google Home.

Note! Make sure you have paired smart WIFI socket with the mobile app.

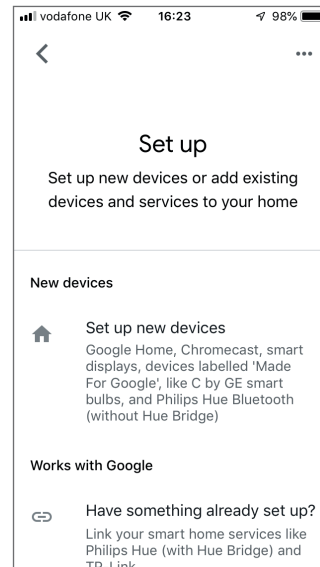

1) Press the + in the top left corner to add the group.

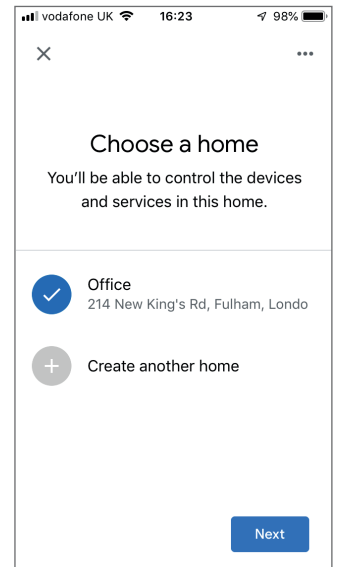

2) Press Set up device.

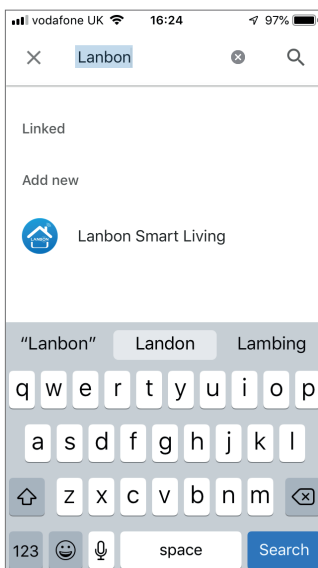

3) Choose "Have something already set up?".

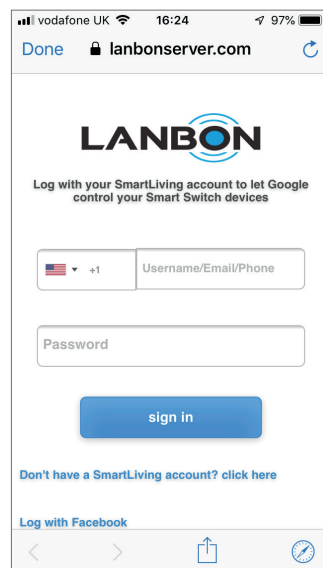

4) Choose your home.

5) Search and select Lanbon Smart Living.

6) Login with your lanbon credentials.

7) You will see the message "Lanbon Smart Living is now linked".

8) Now you can assign the smart WIFI socket to a room and start using with Google Home.

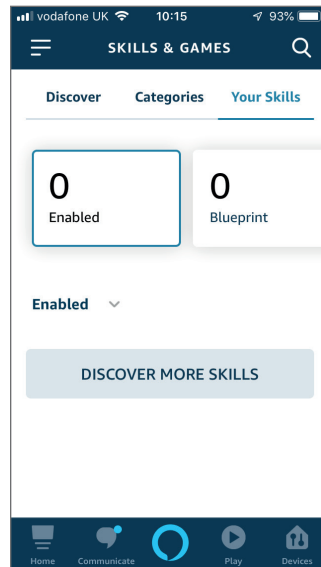

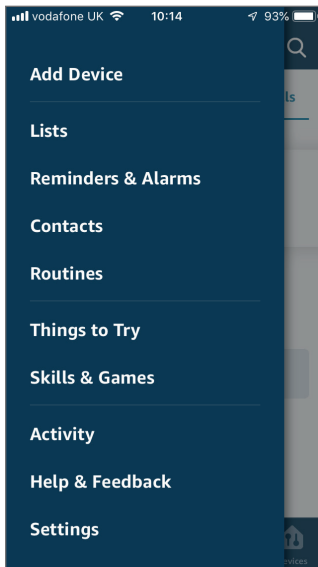

You can say "Hey Google, turn on the bedside lamp" if you have assigned the switch to the bedroom bedside light socket.

For more information how to use voice commands please refer to the Google Home user manual.

Connecting the smart WIFI socket to Amazon Alexa.

Note! Make sure you have paired smart WIFI socket with the mobile app.

- 1) Open the Alexa app on your smartphone and go to Skills & Games.
- 2) In the top right corner Search for the “Lanbon Smart Living” skill and enable.
- 3) Login with your Lanbon credentials.
- 4) You have now linked Amazon Alexa with Lanbon.

You can say “Alexa, turn on bedside lamp” if you have assigned the name to “Bedside lamp”.

For more information how to use voice commands please refer to the Amazon Alexa user manual.
