

BVDMX-501 RGB/RGBW

Constant Voltage DMX Decoder

BVDMX-350 - RGB/RGBW DMX decoder, for use with B30DMX 4 channel DMX controller, allows you to control RGB/RGBW lights that don't have a built-in DMX decoder. Also allows dimming of single colour LED lamps, giving you complete control over your garden lighting installations. BVDMX-501 requires a power supply and B30DMX controller (sold separately)
