

# E3411WW- Navigator Eye - Stainless Steel - 12v - Warm White LED - Eyelid

## Description

E3411WW is a low energy, high output white LED deck and recessed light which consumes a small amount of power and stays cool to the touch. The warm white LED produces a wide 80° beam diffused by the 28mm diameter frosted lens to provide soft lighting compatible with the colour of halogen garden lighting. Install it to light across individual steps or in a wall about 40cm above a patio or deck.

<b>Electrical data</b>	1w 2700k Warm white. 101Lm output. IP65 NAVIGATORS should be powered by 12v ac transformer or dc power supply. <i>Do not use an electronic transformer to power Navigator led lights.</i>
------------------------	---

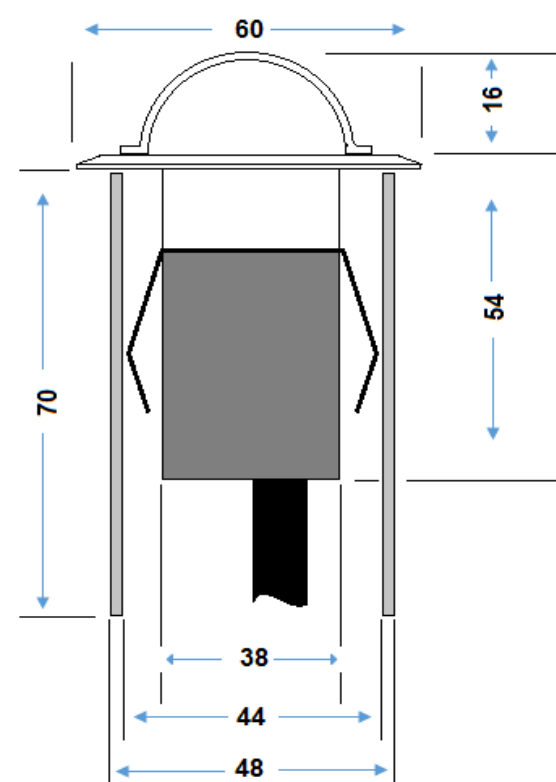

<b>Colour/ Finish</b>	Stainless Steel top.
-----------------------	----------------------

<b>Exterior Dimensions</b>	54mm long Body x 38mm circumference with a plastic sleeve of 70mm long and a circumference of 48mm. Stainless steel top of 60mm circumference and a 16mm protruding eyelid.
----------------------------	---

## Installation guidelines

Navigator lights can be arranged in custom layouts using cable joint kits and 1.5mm cable supplied by the reel, which is more flexible than kit-type products. Connect to end of a low voltage cable using T9962 cable joint kit; for splicing into a run of cable use T9963 cable splice kit..

2 YEAR WARRANTY

Internal wiring & lampholder

Exclusions: Damage due to incorrect lamp fitting or lamps above specification. Responsibility for 3rd party cost; indirect or consequential loss
