

E3421WW - Elipta Navigator Eye - Copper - 12v - Warm White LED - Eyelid

Description

E3421WW is a low energy, high output warm white LED deck and recessed light which consumes a small amount of power and stays cool to the touch. The warm white LED produces a wide 80° beam diffused by the 28mm diameter frosted lens to provide soft lighting compatible with the colour of halogen garden lighting. Install it to light across individual steps or in a wall about 40cm above a patio or deck.

Electrical data	12v 1w 101lm 2700K. 1 metre 2 core HO5RN-F cable.
------------------------	--

Colour/ Finish	Natural Copper top.
-----------------------	---------------------

Exterior Dimensions	Top 60mm diameter. Body length 53mm. sleeve 48mm x 70mm.
----------------------------	--

Installation guidelines

Navigator lights can be arranged in custom layouts using cable joint kits and 1.5mm cable, which is more flexible than kit-type products. Connect to the end of a low voltage cable using T9962 cable joint kit; for splicing into a run of cable use T9963 cable splice kit.

Do not use an electronic transformer to power Navigator LED lights. If powering from a 12v ac wire-wound transformer, ensure transformer is loaded to at least 75% of nominal rating.

**2 YEAR
WARRANTY**

Exclusions: Damage by machinery, animals or the use of incorrect cleaning materials.
Corrosion due to exposure to salt or chlorine.
Damage due to incorrect installation practices.
Responsibility for 3rd party cost; indirect or consequential loss
