

Elipta E4121N - Compact Spike Spotlight - Copper - 12v MR16

Description

The Elipta E4121N is a fully adjustable 12-volt spike spot natural Copper. It has a flush lens to prevent water accumulation, and a longer body to shield the lamp from view. All our natural copper fittings come with a polished finish that weathers to a Verdigris Patina blending naturally with brick, stone and many natural materials.

If a polished look is desired we recommend regular polishing is needed; be sure to remove all traces of polish to prevent dark stains appearing.

| | |
|----------------------------|---|
| Colour/ Finish | Solid natural copper with a polished finish, this will weather to a mottled brown finish in 2-3 years approx. |
| Exterior Dimensions | 103mm x 63mm, not including 250mm spike. |
