

EHH1463-350 - Elipta Kensington Outdoor Post Light - E27 - Graphite

Description

Kensington 240v LED outdoor wall light with a unique simplistic design and powder coated, grey finish make it a suitable light for traditional and modern style houses. The E27 lamp holder sits within toughened, clear glass panels and allow the use of 'retro-style' filament LED lamps, saving on energy consumption whilst complimenting traditional design features. Choice of LED filament ES-E27.

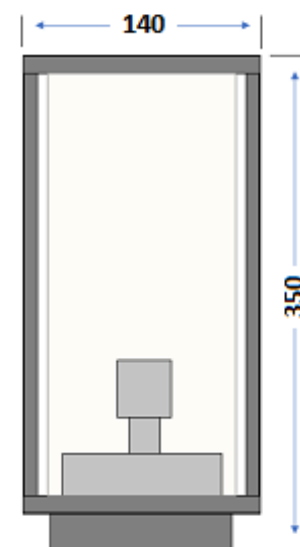

Electrical	240v Retro-fit E27 LED IP54
Colour/ Finish	Graphite Grey powder-coated aluminium
Exterior Dimensions	350mm tall x 140mm square

Installation guidelines

Pre-wired with 2m's rubber cable for connection via T9969 underground joint kit: the installer may shorten the fitted cable to make a weatherproof connection inside the base of the light.

Using a single RCD for large numbers of 240v fittings is not recommended due to the risk of nuisance tripping. We advise the use of separate RCD protection for each circuit and a maximum of 12 fittings per RCD. Where a garden lighting installation of more than 12 spike mount or recessed lights per circuit is proposed, we suggest the installation of 12v units with transformers, which results in a significantly higher fault tolerance and reliability in the total installation.

2 YEAR WARRANTY

Exclusions: Damage by machinery, animals or the use of incorrect cleaning materials.
Corrosion due to exposure to salt or chlorine.
Damage due to incorrect installation practices.
Responsibility for 3rd party cost; indirect or consequential loss
