

EP41260Z- Unibeam Telescopic Garden Spike Light - 240v - 12w -550lm-10°-60°-2700K-IP67- Anodised Anthracite

Description

Unibeam is an adjustable spike-mount 240v LED outdoor spotlight with a telescopic glare shield, for focusing the beam angle range from 10° up to 60° making the light very versatile. Stylish and modern exterior lighting for a wide range of subjects including large wide-spreading shrubs, to more focused outdoor lighting on objects like statues. It has a high-efficiency, built-in 12w COB LED providing light output equivalent to a 75w halogen lamp with a multi-focused beam. Unibeam represents cutting edge design in outdoor LED lighting; an outside LED spotlight with a 550 lumen output and a class leading 10°-60° warm white, adjustable beam angle.

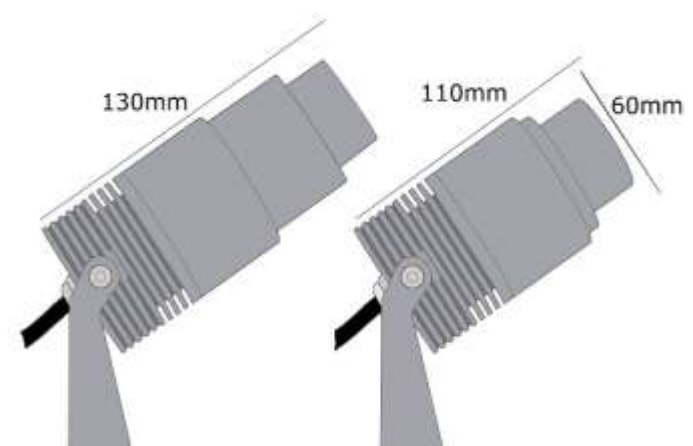

Stirrup bracket mounts on walls or the ground spike supplied. A 2m input cable is provided for connection to the mains supply via a separate weatherproof junction box or underground joint kit (not supplied).

Using a single RCD for large numbers of 240v fittings is not recommended due to the risk of nuisance tripping. We advise the use of separate RCD protection for each circuit and a maximum of 12 fittings per RCD.

Electrical	240v built in 12w 550lm LED 2700k 10-60° beam angle
Colour/ Finish	Anthracite anodised aluminium
Exterior Dimensions	Maximum of 130mm x 60mm. Bracket 51mm tall
