

Elipta EP4836B - Spike8 garden spotlight - 12v dc - 8w - 640lm - 36° - 2700K - IP67 - Black

Description

The Elipta Spike8 LED spike spotlight has a modern yet discrete anodised finish making it suitable for both modern and traditional garden settings. Powered from a 12v dc constant voltage power supply, it makes the Elipta Spike8 LED spike spotlight a safe option, while making it more flexible than 240v fittings when the lights need to be relocated due to the changes in the garden caused by seasonal fluctuation. By removing the spike from the fitting, it can be mounted onto a pergola and used for spotlighting down on a subject.

Electrical	12v built-in 8w CREE LED 640lm 2700k 36° beam angle
Colour/ Finish	Powder coated aluminium
Exterior Dimensions	88mm x 48mm. Bracket 51mm tall

12v DC	IP67	Pre-wired 1.5m	50,000 Hours
Beam 36°		Built-in LED	

Installation guidelines

1.5 metres of 2 core cable fitted for connection to a 12v DC constant voltage LED power supply or to a cable from a 12v LED power supply using T9962 cable joint kit or T9963 cable splice kit.

Do not use wire wound transformers or constant current power supply.

Do not exceed 60% of the nominal rating when selecting your DC constant voltage power supply

3 YEAR WARRANTY

Exclusions: Damage by machinery, animals or the use of incorrect cleaning materials. Damage due to incorrect installation practices. Responsibility for 3rd party cost; indirect or consequential loss.
