

EP9945- Polus Asymmetric LED Recessed Spotlight - 24v-DC-9w 316 Stainless Steel

Description

Polus Asymmetric outdoor LED spotlights are designed for lighting small trees and facades from a close position. The Polus is a high quality, LED recessed lighting fixture with an asymmetric reflector capable of projecting a medium 45° beam upwards to light a tree canopy or facade while still providing coverage at the base. Also suitable to use as an outside recessed LED light, positioned at the foot of an outside wall, and being particularly effective at guarding against glare and where the control of the light spread is important. Purchase transformer separately.

Electrical data	24v DC 9w 2700K 600lm 45°
Colour/ Finish	316 Grade Stainless Steel top.
Exterior Dimensions	Top 78mm circumference. Body of 70mm. sleeve 66mm x 95mm

Installation guidelines

Micro Deck lights can be arranged in custom layouts using cable joint kits and 1.5mm cable, which is more flexible than kit-type products. Connect to the end of a low voltage cable using T9962 cable joint kit; for splicing into a run of cable use T9963 cable splice kit.
